Exhibition and Experience Design

NYSED: 29386   HEGIS: 1009

The 39-47-credit, full-time program in Exhibition and Experience Design prepares students for careers in the exhibition design profession. Students can also choose to take courses on a part-time basis, however, the final semester will be full-time. Please contact the program chairperson for information. The studio-driven curriculum focuses on designing narrative environments with the audience in mind. Students explore exhibition design in multiple areas, including museums and trade and public venues, and develop skills in concept development, environmental design, graphics, lighting, and modelmaking. Working closely with industry partners, the program features actual projects and studio-based competitions with local and international firms, museums, and public facilities. Students can elect to complete an internship at a specially designated site appropriate to their learning needs and career visions. The program culminates with a critical thesis exhibition and experience design project. Curriculum below is for the entering class of Fall 2017.

COURSE OF STUDY

Fall - Semester 1
ED 541  Introduction to Exhibition Design Graphics  1.5
ED 571  Illuminating the Exhibition Experience  3
ED 572  Historical Perspective and Theory  3
ED 581  Introduction to the Exhibition Design Studio  1.5
ED 582  Exhibition and Planning Design Studio  3

Optional Winter Session
ED 573  Exhibition Design International Professional Practices Seminar  0-6
ED 501  Sustainability for Exhibitions

Spring - Semester 2
ED 523  Exhibition Design for the Museum Setting  3
ED 531  Presentation Techniques  3
ED 542  Exhibition Design Graphics  3
ED 584  Exhibition Development and Evaluation  3

Summer Session
ED 591  Exhibition Design Thesis: Directed Research  3

Optional Summer Session
IC 592  Internship - Exhibition Design  0-2

Fall - Semester 3
ED 632  Advanced Presentation Techniques  3
ED 643  Exhibition Design Graphics II  3
ED 651  The Exhibition Model  3
ED 691  Capstone Project Development & Qualifying Paper  3

Total Credits 39-47

COMMON REQUIREMENTS

All degree programs require that students maintain a cumulative grade point average of 3.0 every semester while enrolled in the program. A student is placed on probation if his or her semester GPA is below 3.0. A student is not subject to academic dismissal at the end of his or her first semester in a degree program. A student will be dismissed from the college after two consecutive semesters with a GPA below 3.0. A final GPA of 3.0 is required for graduation.
ADVANCEMENT TO DEGREE CANDIDACY

Eligibility to Attend Commencement Exercises

Candidates for the master’s degree at FIT must have advanced to candidacy before being permitted to attend graduation ceremonies.

Maintenance of Matriculation

To maintain matriculation, a degree candidate must register each semester following entry into a program for either (a) at least one approved course or (b) maintenance of matriculation. If a student does not maintain continuous matriculation, or does not complete all degree requirements in the time allowed, that student will be required to apply for readmission to the program following the procedures and requirements listed in the catalog of the readmission year. If readmission is granted, the student will also be required to pay all delinquent maintenance of matriculation fees prior to being awarded the degree.

Degree Requirements

General

For admittance to degree candidacy, students must have satisfied all prerequisites and completed a minimum of 39 approved course credits in 16 months of full-time attendance. Students can choose to take courses on a part-time basis, however, the final semester will be full-time, and course credits must be completed within 5 years. Please contact the program chairperson for information. Student must achieve a final grade point average (GPA) of 3.0, and had their qualifying thesis project approved by their committee. Students must have advanced to degree candidacy before being permitted to attend graduation ceremonies.

Qualifying Thesis Project

The final semester of the program comprises four interdisciplinary courses, through which students conceive and execute a professional-quality, independent thesis design project, subject to department approval. The thesis is comprised of a design hypothesis proven through research and the execution of a comprehensive exhibition design and qualifying academic paper.

Laptop

Students accepted into the Exhibition and Experience Design program are expected to bring a laptop computer that meets current program specifications. For specific information, please contact the program chairperson.

ED 501 — Sustainability for Exhibitions

3 credits; 6 lab hours
An elective intensive studio course that will enable design students to research and apply fundamental and innovative sustainable exhibition design practices. Through a series of exercises and design projects students will learn how sustainable materials and practices for exhibitions and tradeshow events impact society, design, cost and project management.

ED 523 — Exhibition Design for the Museum Setting

3 credits; 6 lab hours
This studio-based course explores the great diversity of museum exhibitions such as permanent, pop-up, traveling, virtual and collections-based, and the myriad types of museums including art, historic, children’s, science, halls of fame, zoos, botanic gardens, religious, and memorials. This course incorporates multiple applied projects featuring a complete exhibition concept design program for a museum client.
ED 531 — Presentation Techniques
3 credits; 6 lab hours
Introduces the planning and design of professional presentations, including drawings, digital images, and boards. Quick and formal sketch techniques, as well as appropriate materials, are reviewed. This course functions in an interdisciplinary manner with ED 542.

ED 541 — Introduction to Exhibition Design Graphics
1.5 credits; 3 lab hours
Introduces the principles and history of graphic design. Develops a working knowledge of the complementary role graphics plays in exhibit design, as well as an understanding of typographic style, image concept, theme response, brand identity issues, and product graphic requirements. This course will function in an interdisciplinary manner ED 581.

ED 542 — Exhibition Design Graphics
3 credits; 6 lab hours
Explores graphic design communication system, including graphic identity and program development. Imagery and typographic solutions, with an emphasis on two- and three-dimensional design development, are covered. Guest lecturers and site visits included.

ED 571 — Illuminating the Exhibition Experience
3 credits; 6 lab hours
Introduces the role of light in exhibition design in the conversation and interpretation of objects. Topics include illumination of art and text; the relationship between illumination, color, and human response; light as a facilitator of visual communication, merchandising, and education; and light in theatrical and thematic exhibition experiences. Illumination methods and the needs of museums, galleries, and trade shows are explored. Assigned reading, demonstrations, guest lectures, and hands-on experience are included.

ED 572 — Historical Perspective and Theory
3 credits; 1 lecture and 4 lab hours
This studio-based course explores the history, theory, and practice of exhibition design. Through presentations, studio design work and visits to design firms, museums, public and corporate venues, students examine key events and issues. Emphasis is placed on exhibitions as arbiters of fact and content authority, and the extraordinary gains being made in design innovation.

ED 573 — Exhibition Design International Professional Practices Seminar
3 credits; 1 lecture and 4 lab hours
In this seminar students work directly with international business partners to learn fundamental and state of the art business practices. Through panel discussions, presentations, industry-led tours, and studio work, they delve into current marketing, management, and vendor relationship issues that impact the world of exhibitions and project management.

ED 581 — Introduction to the Exhibition Design Studio
1.5 credits; 3 lab hours
Addresses the three-dimensional challenges faced by exhibition designers. Topics include space design; conceptual development of a thematic approach; and creation of a presentation system for products, artifacts, or artwork. Guest lecturers include exhibition designers, producers, and historians. Site visits incorporated when possible. All student projects must meet American with Disabilities Act (ADA) standards. This course functions in an interdisciplinary matter with ED 541.

ED 582 — Exhibition and Planning Design Studio
3 credits; 6 lab hours
Develops an understanding of small- and large-scale projects. Three assignments drawn from such exhibition venues as galleries, museums, trade shows, symposia, and traveling exhibitions are required. Students develop exhibition-design programs that include research, programming, space planning, lighting, graphics, audiovisual components, electronic media, and proposal/presentation development.
ED 584 — Exhibition Development and Evaluation
3 credits; 6 lab hours
This studio-based course introduces students to exhibition design development processes and the variations in practice across different venues. Brainstorming and ideation techniques are exercised and key phases and deliverables explored. The role that exhibition evaluation plays within the exhibition development and design process will be introduced and applied, including Front-End, Formative and Summative.

ED 591 — Exhibition Design Thesis: Directed Research
3 credits; 1 lecture and 4 lab hours
Development of the individual’s thesis program, including the development of the design hypothesis, identification of design criteria, and appropriate research methods for data analysis. Critiques and guidance are provided by both faculty and exhibition design professionals.

ED 632 — Advanced Presentation Techniques
3 credits; 6 lab hours
Covers digital enhancement of manual sketches, portfolio development, and the design, style, layout, content, labeling, and material for each individual’s thesis project.

ED 643 — Exhibition Design Graphics II
3 credits; 6 lecture hours
Focuses on the development of the interactive components and graphic elements, specifically all collateral and print items, for each individual’s thesis project. Covers the graphics requirements of the Americans with Disabilities Act (ADA).

ED 651 — The Exhibition Model
3 credits; 6 lecture hours
Focuses on the construction of three-dimensional exhibition models, and the role these models play in communicating exhibition design concepts. Students develop projects from initial visits to finished presentation pieces. Includes lectures, industry presentations, and site visits to professional model-making facilities.

ED 691 — Capstone Project Development & Qualifying Paper
3 credits; 6 lab hours
This capstone course is a continuation of ED 591, with co-requisites ED 643, ED 651, and ED 632. Students further develop the foundation of their capstone exhibition design project, and complete a graduate-level thesis qualifying paper.
Prerequisite(s): ED 591
Co-requisite(s): ED 643, ED 651, and ED 632.
