

IC: Internship Center

IC 297 — AAS Internship C: Career Exploration

3 credits; 3 lecture hours

This is a basic experiential course designed to help students learn how to maximize work site learning experiences and identify career paths that are well-matched for themselves. They spend a minimum of 12 weeks and a requisite number of hours at their work sites each semester and they spend 12 hours in their internship classrooms.

Prerequisite(s): Approval from the Career and Internship Services and participation in mandatory preparation process in the semester prior to the class/work experience.

IC 497 — Senior Internship: Career Planning

3 credits; 3 lecture hours

A 3 credit advanced internship course for baccalaureate students with a focus on the internship experience and on helping students plan their careers, market themselves professionally and successfully transition from school to work. A minimum of 12 weeks and 123 hours at the internship site and 12 hours on campus in the classroom.

Prerequisite(s): Approval from the Career and Internship Center and participation in mandatory preparation process in the semester prior to the class/work experience.
