### **VP: Spatial Experience Design**

#### VP 211 — Styling, Prop and Set

2 credits; 1 lecture and 2 lab hours

This course explores styling opportunities in a range of media through lectures, demonstrations, and projects. Students are introduced to design and fabrication techniques for props and environments for photography and video productions. Assignments include creation of a temporary studio set, set and prop styling, styling for portraits, and scouting for props.

## VP 301 — Overview of Visual Presentation and Exhibition Design

2 credits; 1 lecture and 2 lab hours
An overview of the visual presentation and exhibition design profession, this course focuses on the historical, social, artistic, commercial, and technical trends and developments over the past 100 years.

developments over the past 100 years. Highlights include retail design, trade shows, expositions, and museum exhibition design.

### VP 302 — Overview of Spatial Experience Design

2 credits; 1 lecture and 2 lab hours

An overview of the spatial experience design profession, this course focuses on the historical, social, artistic, commercial, and technical trends and developments over the past 100 years. Highlights include retail design, trade shows, expositions, and museum exhibition design.

## VP 303 — Space, Environment and Visualization

4 credits; 2 lecture and 4 lab hours
In this course, students develop designs
for presentation environments through a
process that includes content research,
analysis, conceptualization, visualization,
design development, schematic drawing
and presentation documentation. This
process is applicable to an array of
presentation projects including museum
exhibitions, showrooms, interpretive
centers, trade shows, retail, corporate, and
experiential environments.

## VP 304 — Brand, Spatial Experience and Retail Design

2 credits; 1 lecture and 2 lab hours
This course encompasses how
the consumer experience can be
enhanced through store planning, visual
merchandising, and of point of purchase
display. Store, fixture, and point-ofpurchase design is applied to commercial
environments. Overall store design, product
presentation, and fixture design, as well
as point-of-purchase design are applied to
developing commercial environments that
communicate fundamental brand narratives
and anticipate customer behavior.
Prerequisite(s): VP 303.

### VP 305 — Placemaking, Wayfinding and Environmental Graphics

2 credits; 1 lecture and 2 lab hours
This course focuses on the creative
integration of graphics into spaces
to enhance the viewer's experience.
The professional process of concept
development, project proposals, schedules,
techniques, materials, budget, production,
and sources are explored. Assignments
focus on the design of signage and
other graphic media utilizing concept
sketching and computer skills. Process and
evaluation of the professional strategies are
documented and evaluated.

Prerequisite(s): VP 303.

#### VP 306 — CAD for Spatial Experience

2 credits; 1 lecture and 2 lab hours
This course presents 3D CAD to

This course presents 3D CAD techniques in Vectorworks, enabling designers to develop and present their concepts in 3D drawings and renderings.

Prerequisite(s): VP 303.

### VP 311 — Space and Environment for Visual Presentation and Exhibition Design

2 credits; 1 lecture and 2 lab hours Students develop concepts and designs for presentation environments for trade shows and galleries. Designing freestanding installations, as well as tailoring an installation to an existing gallery, are emphasized.

### VP 312 — Product Presentation - Small Scale

2 credits; 1 lecture and 2 lab hours
This course is an introduction to the
process of developing design concepts
for products and brands in visual
merchandising. Students explore
techniques through a series of projects
that visually motivate consumers. They
assemble design combinations and
learn to construct effective merchandise
presentations for the consumer and
marketplace.

### VP 313 — Visual Presentation in In-Store Design

2 credits; 1 lecture and 2 lab hours

This course encompasses design for visual merchandising and the related area of point-of-purchase display. Store, fixture, and point-of-purchase design is applied to commercial environments.

Prerequisite(s): VP 311.

#### VP 314 — Product Presentation - Large Scale

2 credits; 1 lecture and 2 lab hours
This course introduces large-scale
installations designed to entertain, inform,
and entice consumers to interact within
the branded environment, experience
space, trade show, festival, or exhibit.
Students learn fabrication skills applicable
to installing in windows or venue sites.
The mannequin and its alternatives are
presented as an important merchandising
tool, and their correct usage will be
emphasized as well as identity appeal to the
customer.

Prerequisite(s): VP 312.

### VP 321 — Visualization and Sketching for Design

2 credits; 1 lecture and 2 lab hours
In this course, students strengthen and
develop their drawing skills for twodimensional visualization and threedimensional concepts, with an emphasis on
hand drawing. Students draw inspiration
from a variety of sources, including
imagination, drawings, and photographs.

### VP 331 — Three-Dimensional Construction for Spatial Experience Design

2 credits; 1 lecture and 2 lab hours

This course introduces students to the workshop environment, safe practices and techniques for design and production of three-dimensional presentation structures, will be taught as well as creation of scale models, props, and related components through lectures, demonstrations, and hands-on practice. Assignments include construction of walls, set and prop building, finishing and mounting of display objects for showrooms, galleries, museums, retail and other presentation environments.

## VP 332 — Merchandising Lab for In-Store Design

1 credit; 2 lab hours

Through hands-on visual merchandising exercises, in this lab students execute product placement, key item initiatives, and fashion stories, and create soft and hard line product arrangements for brands.

Co-requisite(s): VP 313.

#### VP 341 — Graphic Strategy for Visual Presentation

2 credits; 1 lecture and 2 lab hours
Students study innovative graphic
strategies to unify the visual presentation
of merchandise in a retail environment.
Focus is placed on the integration of
graphics into a retail space to enhance
the shopping experience. The process of
concept development, as well as proposal
preparation, schedules, techniques,
materials, budget, production, and sources,
are covered.

## VP 400 — Portfolio and Careers in Spatial Experience Design

2 credits; 1 lecture and 2 lab hours
This course examines the communication
and digital skills required to create an
identity and visual narrative to prepare for
professional careers. In the class students
will produce an electronic portfolio using
a variety of digital platforms as well as
specific print support. Students develop
research and communication skills to
pursue internship, career research, and
professional networking specifically for the
space and brand experience design field.
Corequisite(s): VP 441.

## VP 401 — Brand Activation in Spatial Experience Design

2.5 credits; 1 lecture and 3 lab hours
Activations, Experience and Events are part of a very fast growing industry for the promotion and visibility of brands.
Students explore and create meaningful and inspiring translations of brand campaigns and new products through interactive spaces, installations and experiences with the goal of educating, inspiring and gaining brand loyalty of consumers.
Prerequisite(s): CT 303.

#### VP 402 — Styling for Professional Presentation

2.5 credits; 1 lecture and 3 lab hours This advanced class explores an array of styling opportunities in a range of media through lectures, demonstrations, and studio projects. Students expand their three-dimensional and digital rendering skills to develop pieces for their portfolio. Working collaboratively, students design and construct a temporary threedimensional trend forecasting installation for the Graduating Student Exhibition. Professional skills necessary for the industry such as scouting locations for photo shoots, finding appropriate props and set, development of fashion presentations and video production will be developed. Prerequisite(s): VP 211 and FS 434 Corequisite(s): FS 454.

## VP 404 — Advanced Brand Experience in Retail Design

2 credits; 1 lecture and 2 lab hours
This course presents a further
understanding of the retail experience
with an emphasis placed on innovation,
technical skills and research analysis.
Overall design concepts, fixtures, choice of
materials and graphic components will be
studied, applied and evaluated. Students will
develop documentation that meets industry
standards as well as advanced rendering
and visualization techniques.

Prerequisite(s): VP 304.

### VP 411 — Interpretive Exhibition Design

2 credits; 1 lecture and 2 lab hours
Designing exhibitions for museums and interpretive and science centers, students strengthen their research skills while exploring interactive and multimedia techniques, and develop projects from concept through proposal. Topics include specialty lighting, sound, working with fabricators, and audience and visitor studies

Prerequisite(s): VP 303 Corequisite(s): VP 441.

#### VP 412 — Senior Design Project

4 credits; 1 lecture and 6 lab hours
In this capstone project, students select
an area of focus from retail, museum,
trade show, or showroom. Research,
inquiry, and writing conducted in the
seventh semester are solidified and applied
to a design project. Students work with
the instructor and industry mentors to
create presentations, documentation, and
prototypes.

Prerequisite(s): VP 411.

#### VP 421 — CAD for Visual Presentation III

2 credits; 1 lecture and 2 lab hours
Students advance their intermediate
Vectorworks skills in the areas of modeling,
rendering, data management, and document
output. Hybrid modeling techniques,
advanced rendering tools and options, data
handling for schedules and reports, and
the ability to produce appropriate output
for clients, contractors, and associates are
covered.

Prerequisite(s): DE 226.

### VP 431 — Prop and Set Design

2 credits; 1 lecture and 2 lab hours
This course introduces design and
fabrication techniques for creating custom
props and environments used in store
windows and other exhibition settings.
Students build props, backdrops, and
three-dimensional sets using a variety
of materials to obtain realistic or fantasy
effects. Special effects, LED lighting, and

# the use of motors are also covered. VP 432 — Store Window Presentation

2 credits; 1 lecture and 2 lab hours
Students learn how to design and execute
store window displays in various largescale settings including department stores,
boutiques, malls, and specialty stores.
Studio skills and techniques are employed
using tools for hard and soft good displays.
Students practice industry standard
merchandise techniques using mannequins,
props, and fixtures to clearly communicate
the store image, promotion, or trend.

#### VP 433 — Advanced Store Design

2 credits; 1 lecture and 2 lab hours
Guided by industry members, students
deepen their understanding of instore design. Specific retailers provide
merchandising challenges for them to
address. Emphasis is placed on innovation,
technical skills, and analysis of research.
Students generate design books, digital
documentation, floor plans, elevations, and
graphic materials, as well as models, to
formally show their designs.
Prerequisite(s): VP 313.

#### VP 441 — Interpretive Exhibition Graphics

2 credits; 1 lecture and 2 lab hours
This course explores the role of graphics as an integral component of exhibition design.
Graphics are developed concurrently with exhibit design concepts from VP411.
Through lectures, readings, and museum visits, students learn how graphics are used to create a comprehensive identity for the

Prerequisite(s): VP 305 Corequisite(s): VP 411.

exhibition.

#### VP 461 — Portfolio and Professional Presentation

2 credits; 1 lecture and 2 lab hours
This course examines the critical thinking
skills required to produce a portfolio,
resume, and self-promotional marketing
materials. Students develop career goals,
job-seeking research and professional
networking skills, and interviewing
techniques for the visual presentation and
exhibition design field.

VP 480 — Special Topics: Use A-Z 0 credits

## VP 480A — Special Topics in Motion and Design: Storytelling for Graphic Design

2 credits; 1 lecture and 2 lab hours
This course covers the latest theories,
principles, and skills of motion graphics.
Graphic Design students utilize a variety of
motion graphics software to contextualize
their designs. Motion, sound and
storytelling are stressed.

## VP 499 — INDEPENDENT STUDY FOR VPED

1-3 credit
