Students who successfully complete the Animation, Interactive Media and Game Design BFA program will be able to:

1. Produce animation and interactive projects at a professional level, from concept to finished project.
2. Demonstrate competency in advanced 3D modeling and animation software (specifically modeling, rigging, lighting, texturing, and animation).
3. Use the software packages that are used in the industry, as well as have the ability to translate their artistic skills into any new software that they encounter.

4. Work within a team environment to create, plan, and execute both original stories through the art of animation and good interactive experiences for the user.
5. Have a foundation in the history of animation that empowers graduates to make the best moving images work in consonance with the best sound, color, perspective, and storytelling.
6. Integrate music and sound design into an established graphical context.
7. Have explored video as a means of communication and be able to produce content for both animation and interactive digital media.
8. Have a working knowledge of distribution methods and be prepared to approach the constant changes in media culture.
