PK: Packaging Design

PK 000 — PACKAGING DESIGN

1-3 credit; 1 lab hour

PK 211 — Introduction to Packaging Design

1.5 credits; 3 lab hours

An introduction to the field of packaging design, covering branding, graphics, materials, technology, and typography. This studio course focuses on design phases from concept to three-dimensional comprehensives, and includes field trips and guest lecturers.

PK 212 — Foundation in Three-Dimensional Design for Consumer Packaging

2 credits; 1 lecture and 2 lab hours
With a focus on three-dimensional
conceptual design, students learn
the basics of how packaging design
professionals create innovative forms
that have visual impact within the retail
area. They experiment with a variety of
packaging materials, as well as recycled and
sustainable solutions.

PK 216 — Foundation in Packaging Design

2 credits; 1 lecture and 2 lab hours
This course introduces the fundamentals
of packaging design. Lectures and design
assignments provide students with the
opportunity to understand and explore
packaging design principles as they apply to
the marketing of consumer brands.
Co-requisite(s): (for one-year
Communication Design Foundation
students) AD 216.

PK 302 — Packaging Design for Cosmetics and Fragrance Marketing

2 credits; 1 lecture and 2 lab hours
For Cosmetics and Fragrance Marketing
students. This hands-on course introduces
the principles of packaging design for
cosmetics and fragrance products. Students
learn about brand identity, packaging design
systems, materials, and the relationship
between packaging and cosmetic and
fragrance retailing.
Prerequisite(s): CM 341.

PK 315 — Digital Prepress for Packaging Design

2 credits; 1 lecture and 2 lab hours

This course introduces students to digital mechanical art creation specifically for packaging design. Students learn file management, printing methods, color processes, packaging substrates, and how a packaging design moves from design approval to mechanical art creation.

PK 317 — Design Process

3 credits; 3 lecture hours

This lecture-based course examines the packaging design process as the means by which marketing strategy and the goal of putting the packaged product into the hands of consumers is translated. Emphasis is placed on all aspects of how a clear and effective design process is the essential foundation to meeting the goal of developing packaging designs that are effective sales tools. Co-Requisite(s): PK 318.

PK 318 — Design Process Studio

3 credits; 6 lab hours

The studio environment is central to an education in packaging design. Students explore the packaging design methodology and discover techniques and approaches that form their individual design process. They demonstrate knowledge gathered in their fifth semester courses and utilize the studio method of learning. Co-Requisite(s): PK 317.

PK 319 — Strategic Design Studio

3 credits; 6 lab hours

Students learn how the formulation and development of ideas takes shape from the foundation of research, exploration and investigation, and how the formation of a packaging design strategy can achieve visual problem-solving goals. They learn how a clearly articulated and defined strategy facilitates the design process and serves the objective of a successful packaging design.

Corequisite(s): PK 354.

PK 325 — Brand Identity Design for Consumer Products

2 credits; 1 lecture and 2 lab hours
This course is designed to explore
all aspects of brand identity design
for consumer products. Through
assignments, exercises, and lectures,
students develop an understanding of how
professional designers develop and apply
brand identities. Students explore how
typographic decision-making and design
strategies affect the communication of the
brand identity.

Corequisite(s): PK 317.

PK 341 — Digital Tools I

2 credits; 1 lecture and 2 lab hours

Through hands-on interaction, students learn the digital tools used to develop brand packaging designs. Students utilizing the toolbox, plug-in resources, application of scanned and designed images. Students learn the tools and techniques to create designs that communicate the brand, stand out in the marketplace, capture customers but also meet specifications.

Corequisite(s): PK 318.

PK 342 — Digital Tools II

2 credits; 1 lecture and 2 lab hours

An advanced studio to utilize an advanced approach to master the digital design tools for packaging design. Students are pushed to unleash creativity and transform design concepts into powerful communication vehicles for a brand.

Prerequisite(s): PK 341 Co-requisite(s): PK 354.

PK 343 — Explorations in 3D

2 credits; 4 lab hours

This course challenges students to consider the transition of taking two-dimensional design explorations into a three-dimensional representation. Experimentation with materials, methods and technology are key components of this studio course.

Corequisite(s): PK 319.

PK 354 — Design Strategy

3 credits; 3 lecture hours

Students learn how brands take shape from the foundation of research, exploration, investigation, to an understanding the consumer mindset and retail/etail challenges. The varied complexities in the formation of a design strategy are explored. Students experience and apply the professional tools and techniques used in the decision making process.

Corequisite(s): PK 319.

PK 361 — Packaging Design: Global Perspectives

3 credits; 3 lecture hours

Students experience the business of branding and packaging design in Europe through on-site lectures, seminars, tours, presentations at design consultancies, manufacturers, marketers, museums, suppliers and retailers. They learn the design process, profession, marketing, and retailing from an international perspective.

PK 403 — Packaging for the Toy Designer

2 credits; 1 lecture and 2 lab hours
Emphasizes conceptual and mechanical
toy packaging development, introducing
students to types of packaging and
constructions used in the toy industry.
Environmental and safety issues are
considered in addition to study of
marketing, trends, and consumer
motivation.

Prerequisite(s): all seventh-semester Toy Design courses or approval of chairperson.

PK 413 — Sustainable Packaging Design Development

3 credits; 6 lab hours

In this studio course, students are actively engaged in applying research and knowledge on the complex issues of sustainable packaging design. Using industry guidelines, systems thinking, and a strategic design approach, designers will be able to make sustainable decisions on materials choices and production methodologies with the tools to address environmental considerations in a creative, responsible, and economical way.

PK 418 — Experiential Brand Design Studio

3 credits; 6 lab hours

Students explore experiential brand design as a cross-media activity that encourages interaction and direct physical immersion into a brand. The designers apply best practices and innovation and work individually and in teams to follow realistic design objectives to translate campaigns and/or new products into interactive experiences for consumers.

PK 427 — Designer's Portfolio

3 credits: 6 lab hours

This capstone course is designed for students majoring in Packaging Design to successfully prepare, plan, design and consider their own professional goals and objectives. Career options, resume and portfolio preparation and design projects to broaden and enhance the portfolio are covered.

PK 431 — Sustainable Packaging Design

2 credits; 1 lecture and 2 lab hours
Students learn the fundamentals of
sustainable design for brand packaging
design, including best practices,
environmental and social issues, industry
terminology, characteristics of sustainable
materials, life cycle analysis, the packaging
scorecard and the myriad of materials,
technologies, guidelines and regulations.
The application of this knowledge is applied
to create positive change.

PK 463 — Professional Practice

3 credits: 3 lecture hours

In this course, students gain an understanding of the diverse roles, responsibilities, opportunities, and environments across the consumer product goods (CPG) profession. The goal of this course is to broaden the student's understanding of the business of design for global consumer brands from the perspective of global industry leaders and for the student to gain a sense of their place in this profession.

Corequisite(s): PK 418.

PK 491 — Internship

3 credits

An unsalaried 14-week internship with a design firm or for an in-house corporate design team with a minimum of 123 hours at the worksite and 12 hours on campus. Completion of a daily diary, a written report on the experience, and a portfolio of work are required.

Corequisite(s): PK 427.

PK 499 — Independent Study in Packaging Design

1-3 credit

Prerequisite(s): a minimum 3.5 GPA and approval of instructor, chairperson, and dean for Art and Design.
