

# Psychology Minor

---

Psychology is a rich discipline that appeals to a wide range of interests. Psychology minors can study perception, the brain's influence on behavior, the psychology of color, development from infancy through old age, personality, mental disorders, behavior in the workplace, and how to conduct research in these areas.

The following requirements below are intended for students beginning fall 2024. To declare your minor, please speak to your academic advisor for assistance.

**Minor Coordinator:**

**Daniel Benkendorf**
