

Textile Development and Marketing AAS Degree Program

<http://fitnyc.edu/tdm>

School of Business and Technology

Applications accepted for fall only. NYS ED: 00841 CIP: 19.0901

The major in Textile Development and Marketing prepares students to make a textile what it is—and make a designer creation look and perform exactly as it should. Students learn sustainable fabric development, color creation, and management for fashion apparel and home furnishings end uses, with an emphasis on textile applications and forensics, global sourcing, and marketing. Curriculum below is for the entering class of fall 2025.

Upper Division Alternative(s):

Graduates of this program are eligible to apply for admission to the Bachelor of Science programs in Cosmetics and Fragrance Marketing, Direct and Interactive Marketing, Home Products Development, Production Management: Fashion and Related Industries, and Textile Development and Marketing. By completing

certain course requirements, graduates may also apply to the Bachelor of Science programs in Advertising and Marketing Communications, Fashion Business Management, International Trade and Marketing for the Fashion Industries, and Technical Design.

Upon graduating from the Textile Development and Marketing AAS degree program, students will demonstrate:

1. Sustainability and Corporate Social Responsibility: Students will understand the meaning, relevance and responsibility to steward finance, ecology and society.
2. Product Knowledge: Students will be able to examine textile products, including analysis and application to appropriate end uses.
3. Technology: Students will develop a scientific baseline of textile technology to understand both the primary and ancillary needs of textile products.
4. Research & Critical Thinking: Students will demonstrate techniques that enable decision making through product and process knowledge.
5. Globalism: Students will develop diverse patterns of thinking to understand the complex geographical and cultural nature of the textile industry.
6. Communication: Students will demonstrate the basic methods of domestic and international communication so they can function globally.
