

Economics Minor

The Economics minor enables students to acquire a useful understanding of economic concepts and analyses and improves students' analytical skills. The minor complements our degree programs in Business and Technology and provides graduates with a competitive edge in the job market. The Economics minor reflects students' analytical abilities as well as their commitment to a challenging academic program.

The following requirements below are intended for students beginning fall 2023.

To declare your minor, please speak to your academic advisor for assistance.
